

Tuff Trac® Vinyl Matting

Five Unique Embossed Patterns

Diamond Plate with optional yellow safety edge border for positive traffic control

Positive slip protection and employee comfort with enhanced wear performance make Tuff Trac® your first choice in Vinyl Matting

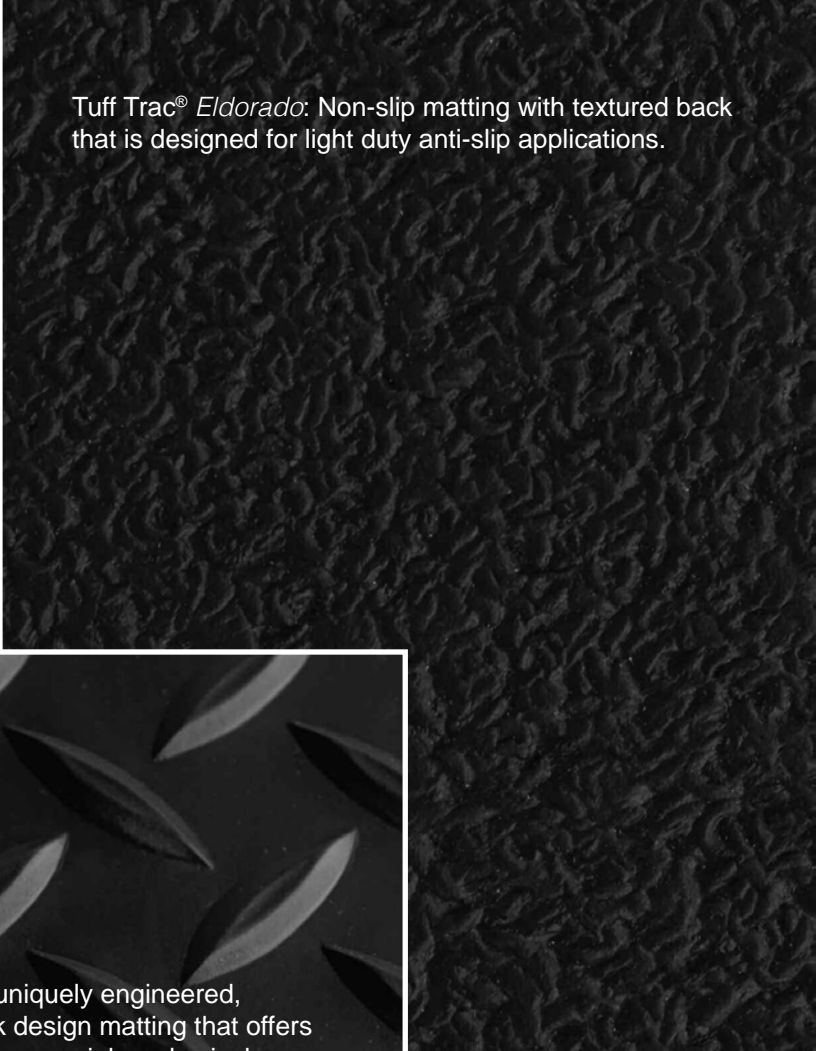

Tuff Trac® Vinyl Matting from RM Biltrite™ is manufactured from a proprietary blend of virgin and recycled materials that provide outstanding performance and superior wearability.

Tuff Trac® Vinyl Matting creates safe, comfortable work environments for employees in industry, health care, electronics manufacturing, warehousing or any public space where slip and wear protection is important.

Tuff Trac® Vinyl Matting is also available with enhanced performance characteristics for special environments. Tuff Trac® antistatic vinyl matting protects people and equipment in places like clean rooms or hospital operating rooms where static control is critical. Tuff Trac® low flame - low smoke formula is particularly suitable for work environments that include welding, grinding and other heat or spark producing work stations. Also for use in any public space subject to fire safety code requirements.

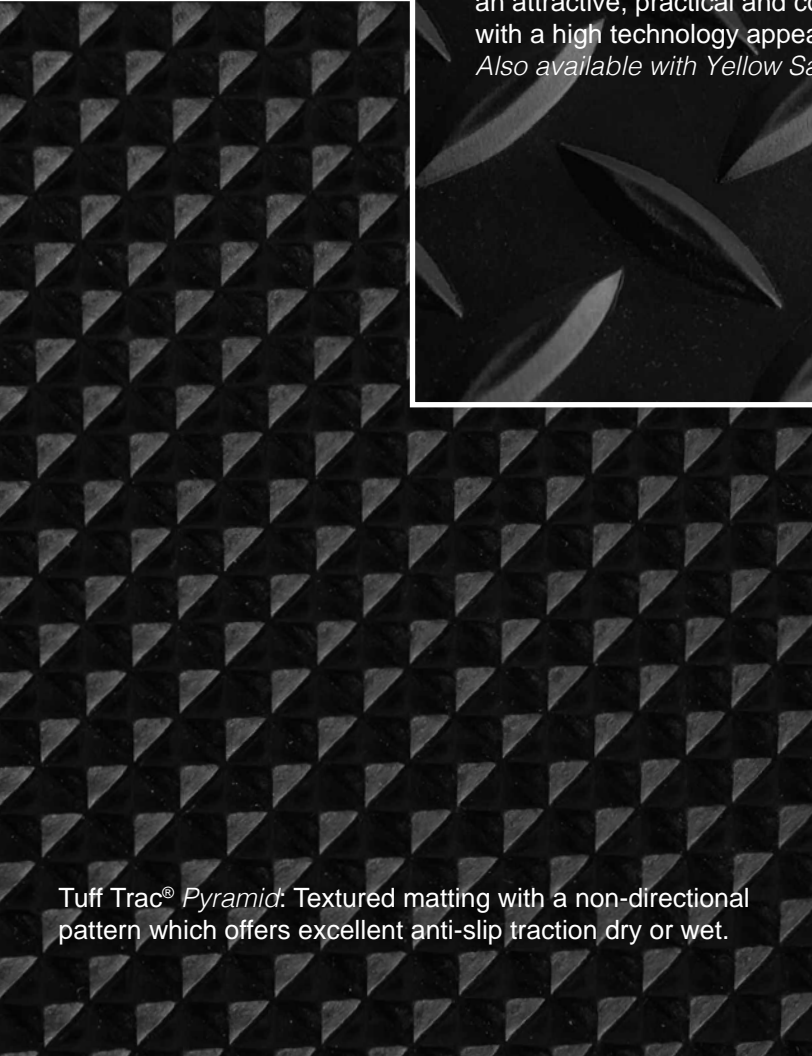

Tuff Trac® *Easy Sweep*: This matting product is designed with a round ribbed corrugation running lengthwise and textured back.

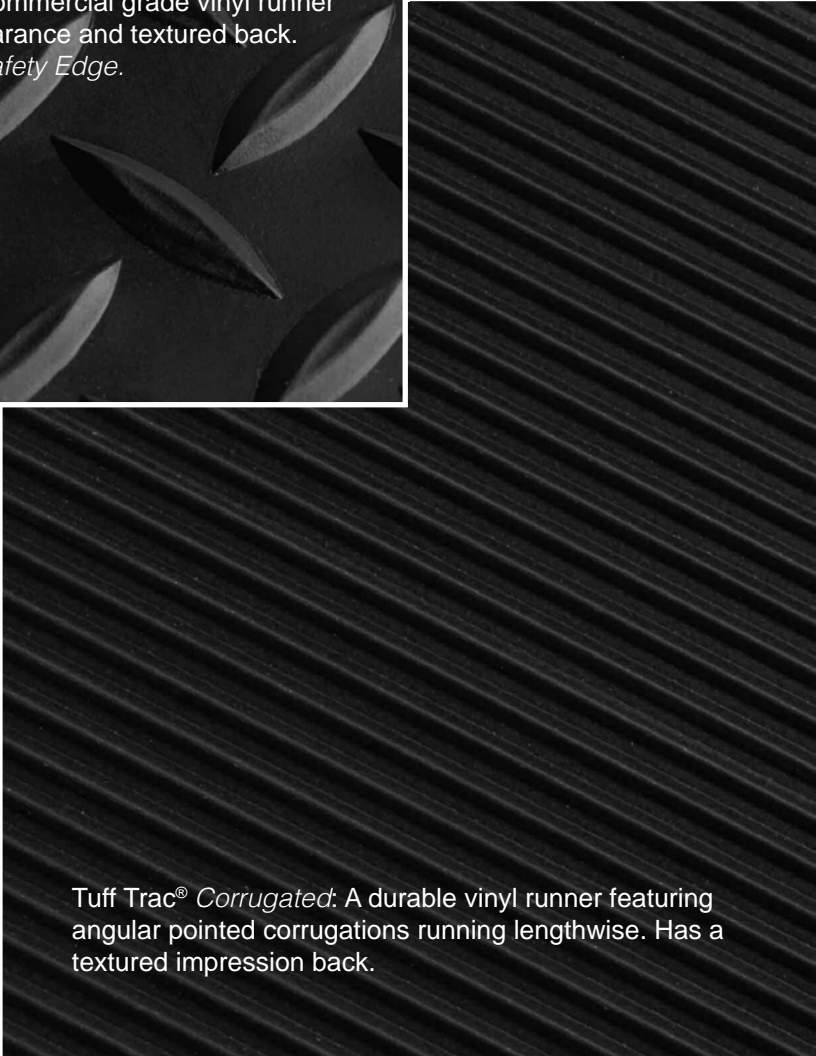

Tuff Trac® *Eldorado*: Non-slip matting with textured back that is designed for light duty anti-slip applications.

Tuff Trac® *Diamond Plate*: A uniquely engineered, deeply-embossed, steel-deck design matting that offers an attractive, practical and commercial grade vinyl runner with a high technology appearance and textured back.
Also available with Yellow Safety Edge.

Tuff Trac® *Pyramid*: Textured matting with a non-directional pattern which offers excellent anti-slip traction dry or wet.

Tuff Trac® *Corrugated*: A durable vinyl runner featuring angular pointed corrugations running lengthwise. Has a textured impression back.

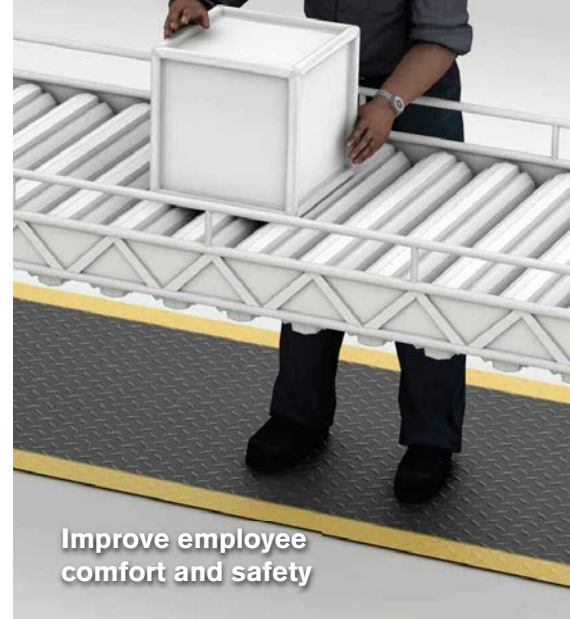

Tuff Trac® Vinyl Matting comes in five different embossed patterns for light or heavy traffic and is available with a yellow safety edge where positive traffic control is required.

Intended Uses

Tuff Trac® Vinyl Matting embossed patterns cover every conceivable application. From our *Easy Sweep* pattern for general use in schools, hotels, restaurants and other public spaces where good slip resistance and ease of maintenance are a priority, to our *Diamond Plate* pattern for industrial and heavy traffic areas such as ramps, marine terminals, or automotive repair shops that demand extra protection.

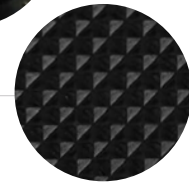

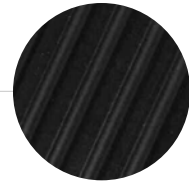

Tuff Trac® Vinyl Matting specifications –

TEST	TEST METHOD	TYPICAL RESULT
Shore A Durometer	ASTM D 2240	80 +/- 5
Elongation	ASTM D 412	150%
Tensile Strength	ASTM D412	600 PSI
“Die” “C” “Tear”	ASTM D 412	100 lbs.
