

RM Biltrite™ Flexgard® Duraflor® Rubber Flooring enhances the look of any area while providing increased walking comfort, slip resistance, anti-fatigue, anti-bacteria, and noise reduction than other hard surface floorings.

Duraflor® is scratch resistant and cleans easily with regularly available floor cleaning solutions. It is a very low maintenance flooring option in comparison to wood and carpet. Duraflor® does not require any waxing, polishing, scrubbing, sanding, or refinishing. Product can be laid loosely on top of previous flooring or bonded directly to the floor itself.

RM Biltrite™ supplies Duraflor® in both tiles and rolls. Duraflor® is available in solid, marble, and speckle patterns and comes in a wide range of colors for easy, customizable design creation. Custom colors can be provided upon request. Flooring comes with smooth or sandpaper backing.

Applications: Ramps, restrooms, concourses, schools, hospitals, gymnasiums, elevators, lobbies, corridors, locker rooms, cafeterias, shops, hotels, hallways, offices.
